877-2- MUELLER • www.muellerinc.com
PARTS LIST

Refer to the parts list on the itemized invoice delivered with your building. All parts are stenciled on the inside of the channel, purlin, girts and rafters. Example of this below:
TYPES OF SCREWS

TEK Screw
For attaching sheet metal to purlin

Lap TEK Screw
For attaching sheet metal to sheet metal

NOTE: Make sure to use TEK screws to attach sheets to purlins, lap TEK screws to attach sheets to sheets.
NOTE: Leading and trailing edge of channels are overbent for a tight fit. Spread apart as needed to nest the purlin into the channel.

BASE LAYOUT (BC-1 AND BP-1)

Leveling and proper blocking is critical for the base layout.
MAKE SURE THE ASSEMBLY IS SQUARE

NOTE: Mueller recommends the building be placed on leveling blocks (not included) to support the base channel and purlins. Mueller also recommends the building be anchored to the ground or foundation. The method of anchor is at the owner’s discretion.

Make sure the assembly is square. Assembly is square when the corner to corner measurements are equal.
FLOOR KIT (OPTIONAL)

NOTE: Mueller recommends the building be placed on leveling blocks (not included) to support the base channel and purlins. Mueller also recommends the building be anchored to the ground or foundation. The method of anchor is at the owner’s discretion.
FLOOR KIT (OPTIONAL)

OPTION 1
Notching

OPTION 2
Slotting
Slotting is for column flange
ERECTING COLUMNS (C-1)

Attach column to MKB-1 (Galvanized MKB-2) clip using 1/2"x1" Fin Head Bolts

HINT: Add clips to top of columns before standing up.
RAFTERS (R-1)

Bolts should remain loose until EC-1 is installed

Place one bolt as shown.
EAVE CHANNEL (EC-1)

Tighten bolts after EC-1 is installed.
RAFTERS (R-2)
MAKE SURE THE ASSEMBLY IS SQUARE AND LEVEL

Make sure the assembly is square. Assembly is square when the corner to corner measurements are equal. Use temporary bracing (not included) to hold assembly square if required.
ROOF PURLIN

Open side of RP-1 faces to center of building
DOOR AND DOOR TRIM

Notch and bend trim as shown.

TOP VIEW
- Door Jamb
- Door
- J Trim
- TEK Screw
MID-GIRTS
(OPTIONAL - MG-1, MG-2 AND MG-3)

To attach MG-3, use TEK screws to go through door trim, door frame and girt.

NOTE: Bolt to inside of column leg.
WINDOW (OPTIONAL)

Start sheet 3/4" past steel line. Sheet 1" above bottom of base channel

NOTE: Sheets below window will need to be field cut for window assembly.

Install one full sheet, then partial sheet. Insert window and flap flush to sheet. Add drip edge window trim when installing eave trim.

See installation instructions included with the window packaging.
SHEETING SCREW PLACEMENT

WALL SHEETS

ROOF SHEETS

Place sealer tape between roof sheets only.

NOTE: Make sure to use TEK screws to attach sheets to purlins, lap TEK screws to attach sheets to sheets.
SHEETING

NOTE: Make sure the frame is plumb and level, and tighten all bolts prior to sheeting. Repeat for each wall.

NOTE: For side with door, start sheets flush with J-trim on both sides of the door.
SHEETING ENDWALL WITH OPTIONAL DOUBLE DOOR

IMPORTANT: 1" above the bottom of the base channel

Inside closure goes on the bottom and outside closure goes on top.

NOTE: Start sheets inside of J-Trim 1" above the bottom of the base purlin
SHEETING SIDEWALL

NOTE: Start sheets 1" above the bottom of the base channel and 3/4" out from endwall.
SHEETING ENDWALL

NOTE: Start sheets 1" above the bottom of the base purlin and 3/4" out from the sidewall.
CORNER TRIM
BACK SIDE WALL

Roof to wall sheet alignment

Align major ribs from wall to major rib on roof

NOTE: Make sure panels remain square during installation.

NOTE: If optional double door is used, roof and wall sheets will not align.
**SHEETING THE ROOF**

Align roof sheets with wall sheets

Place sealer tape between roof sheets to avoid leaks

**CAUTION:** Use scaffold boards when installing roof panel sheets/trim

**NOTE:** Use TEK screws at the purlins

Use Lap TEK screws every 20" vertically
ROOFING TRIM DETAILS

CAUTION: Use scaffold boards (not included) for support while installing roof sheets and trim.

NOTE: A chalk line will assist in closure and ridge roll placement.
SKYLIGHT RIDGE ROLL INSTALLATION

CAUTION: Use scaffold boards (not included) for support while installing roof sheets and trim

HINT: Screw corner of ridge roll and middle first to maintain pitch. Install remainder of screws.
TOTAL BUILDING MEASUREMENTS

12'2" x 15'2" x 7'1"

7'8"
