### MLK PANEL

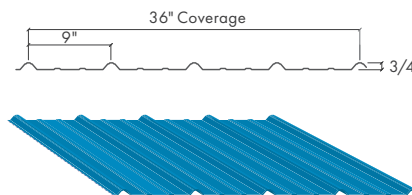

### MTL PANEL

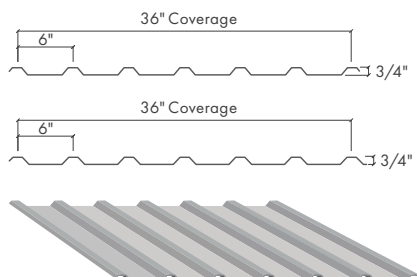

### R & PBR PANELS

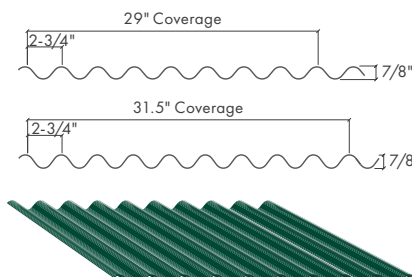

### SSP PANEL

### U & PBU PANELS

### CORR & CPB PANELS

## COLOR CHART

Final color selections should be made from metal color chips.

Gauge and finish options vary by panel profile. For the most current information available, as well as details about paint warranty coverage, visit our website: [muellerinc.com](http://muellerinc.com).

All Signature® 200 and 300 colors are Cool Roof compliant through the CRRC-1 Program. Visit [coolroofs.org](http://coolroofs.org) for more details.

### SIGNATURE® 200 Silicone Modified Polyester

### SIGNATURE® 300

Polyvinylidene Fluoride (PVDF) | Low Gloss

Mueller has the right to discontinue colors without notice. Not all colors are available in every panel.

\*Metallic colors incur an upcharge, panels and trim are directional and must be installed in the same direction to prevent perceived shade variances.

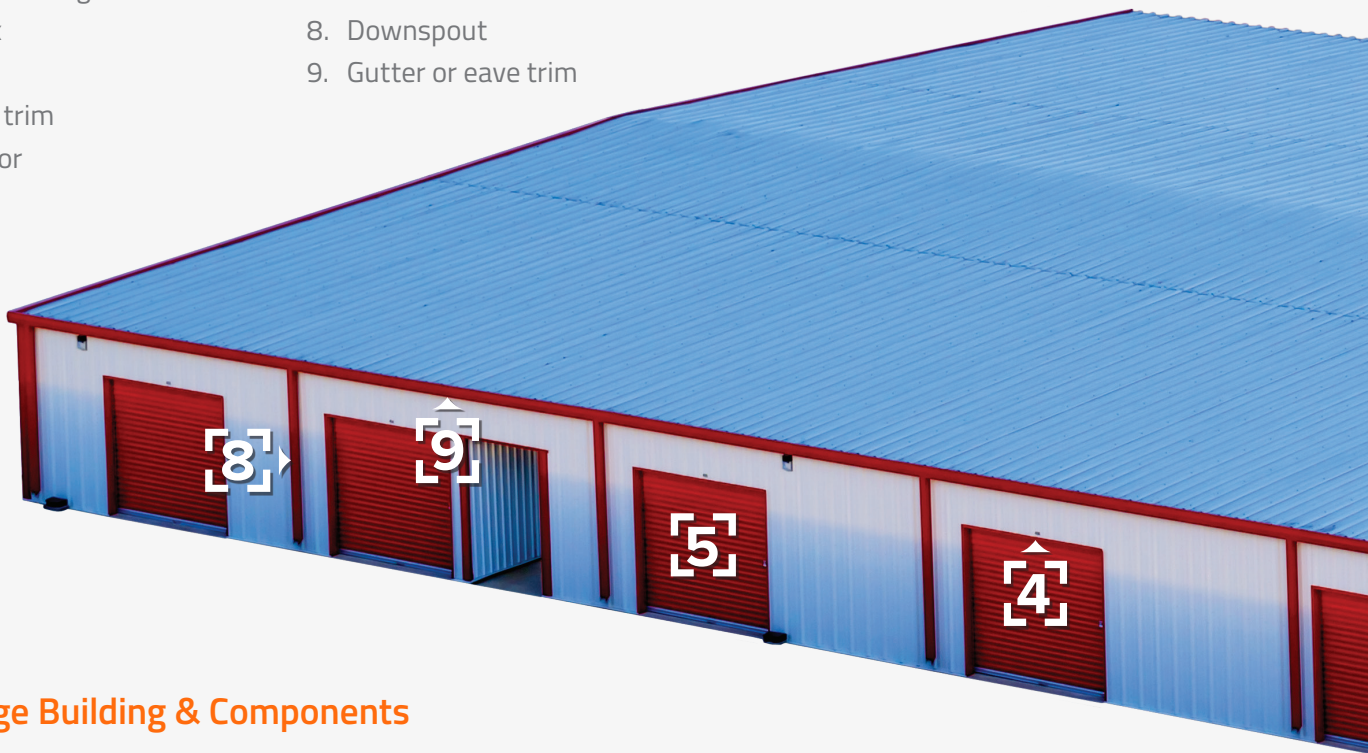

# COMPONENTS & ACCESSORIES

The basic structure of a Mueller steel building is made up of components. Our intense quality control measures help ensure consistency and durability in all of our steel products. Our top priority is quality products along with customer satisfaction. Explore all of our steel building components, such as beams, purlins and square tubing, and find out more about our wide range of accessories, including trim for your building along with metal roll-up doors, walk doors, windows, insulation, vents and screws.

**PRE-PUNCHED BASE CHANNEL, ANGLE AND BASE CLIPS!**

## ROLL-UP DOORS [MADE IN-HOUSE]

### Everything You Want in a Metal Roll-Up Door

- Durable Construction
- Quiet Operation
- Easy Installation
- Long-Lasting Performance

Select from a wide range of sizes and designer colors to complement your Mueller Mini-Storage projects.

### Here's why you should choose a Mueller Roll-Up Door

- Tension Tube – for even distribution of spring torque, providing longer life & less down sag.
- Larger Springs – for durability and long-lasting performance.
- Dual Cam Tension Support Bracket – provides easier spring adjustment.
- Bearings – mounted from the inside out to provide fail safe conditions.
- Stronger Bottom Bar – galvanized steel bottom bar with a built-in stop plate, enhancing rigidity and strength.
- Stronger Curtain – available in many colors.
- Deeper Guide – Up to 3.5" deep, heavy duty galvanized steel.
- Wind Certified Options Available.
