**Additional sizes can be special ordered.*

ACCESSORIES

- Electric Roll-Up Door Opener
- Radio Control Kit
- Electric Operator Kit

WIND CERTIFIED ROLL-UP DOORS

If you live in an area with high winds, you should consider a wind-certified roll-up door from Mueller. At our in-house testing facility, these doors were proven to withstand winds up to 120 mph. Our test generated a force of 37 pounds per square foot, which is equivalent to 120 mph wind. Specially designed hooks, attached to the inner workings of each guide, deliver extra durability.

PURLIN

Mueller offers a choice in run-to-length purlin: #1 spec material for engineered structures, and high strength material for weld-together projects. These two options help meet your specific needs while also giving you the luxury of specified lengths.

#1 Engineered Structural Shapes with the Mueller Punch Pattern.

(Custom punched patterns are available, please contact your Mueller sales representative.)

Cee Size	Actual Zee Size	Gauge	Wt./Ft.
4" x 2-1/2"	4" x 2-1/8" x 2-3/8"	16	2.09#

INSULATION

R-Values represent resistance to conductive heat transfer but don't measure a product's ability to reflect radiant heat transfer. Over 75% of a building's heat loss or gain is through radiation. Mueller can supply you with insulation, patching tape and net wire to give you more energy efficiency.

FIBERGLASS INSULATION

- 6' x 100' x 3" - White Vinyl
- 6' x 100' x 3" - Vinyl Reinforced
- 4" & 6" available - Special Order
- Custom lengths available - Special Order

SOLARGUARD®

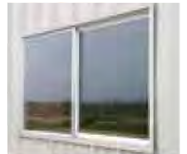

SolarGuard insulation addresses all three forms of heat transfer. It combines a fiberglass core to slow heat transfer through conduction and convection but also has a highly reflective foil backer film to block radiant heat as well.

WINDOWS

HORIZONTAL SLIDING WINDOW

Furnished in Mill Finish

- w/ Half Screen 3' x 3'
- Insulated 3' x 3'
- w/ Half Screen 6' x 3'
- Insulated 6' x 3'

FIXED ACCENT WINDOW

Tinted Glass 2' x 7'

- Tubular construction for rigidity
- Furnished in bronze paint finish
- 1/8" gray tempered glass
- 6030 Alloy, T5 Temper
- Quick and easy to install

WALK DOORS

Walk doors can use standard, premium, heavy-duty lever locksets or panic hardware. Weatherstrip kits are recommended to give you a tighter fit and reduced air leakage and dust.

You can order complete door kits, which include the door, frame kit and standard lockset. Doors are 20-gauge steel with a polystyrene core, and frames are 16-gauge steel. A slide bolt is included on the 6' x 7' door unit.

DOOR FRAME SIZE

White w/ Embossed Finish

- 3' x 7' 4-1/4", 6-1/4", 8-1/4", 10-1/4"
- 4' x 7' 4-1/4", 6-1/4", 8-1/4"
- 6' x 7' 4-1/4", 6-1/4", 8-1/4"

Vertical Glass

- 3' x 7' 4-1/4", 6-1/4", 8-1/4", 10-1/4"
- 6' x 7' 6-1/4"

Half Glass Reversible

- 3' x 7' 4-1/4", 6-1/4", 8-1/4", 10-1/4"
- 4' x 7' 4-1/4", 6-1/4", 8-1/4"
- 6' x 7' 6-1/4"

Personnel Door w/ Dead Bolt

- 3' x 7' 8-1/4", 10-1/4"
